Math	Lang. Arts	Sci./STEAM	Health/Social
<p>Go on a shapes scavenger hunt around your house. Look for squares, circles, triangles, rectangles, spheres, cylinders, and cubes. Make tally marks to show how many you find.</p>	<p>Use old newspapers, cereal boxes, magazines, etc. to find and cut out words you can read. Glue them onto paper to make a word collage and practice reading them.</p>	<p>Build a tower as high as you can using anything you have (blocks, empty boxes, plastic cups, paper plates, etc.) If you can, use a tape measure to measure how high it is.</p>	<p>Count to 120 while running in place.</p> <p>Count by 5's to 100 while doing jumping jacks.</p>
<p>Grab a handful of any item in your house (small toys, crackers, cereal, etc.). Count how many you grabbed. Then grab another handful and count again. Add the piles together. How many did you grab all together? Repeat this 5 times.</p>	<p>Draw a picture and write 2-3 short sentences about what you did on your snow day. Remember to use capital letters, spacing, and punctuation when you write!</p>	<p>Ask an adult to help you make your favorite recipe for a meal or a snack. Help measure and mix the ingredients.</p>	<p>Do a household chore (sort laundry, dry the dishes, sweep the floor, etc.)</p>
<p>Ask an adult or older sibling to help you find a pile of coins. Sort the pile of coins by quarters, nickels, dimes, &amp; pennies. How much is each one worth?</p>	<p>Find someone to read your favorite story to you. Count how many words or sentences you find on each page.</p>	<p>If you have food coloring and either Karo syrup or sweet &amp; condensed milk in the house, make your own paint! Add a few drops of coloring to either one for a fun painting experience. <b>Hint:</b> using Q Tips to paint with works well for clean up.</p>	<p>Sing a song with anyone in your house (or a pet).</p> <p>OR</p> <p>Find something in your house to use as a musical instrument and play it to your favorite song.</p>
<p>Write down the age of everyone in your house. Tell an adult how many 10's and 1's are in each person's age.</p>	<p>Write color words (red, yellow, green, blue, etc.) on separate pieces of paper. Scatter them a few feet apart on the floor. Hop on one foot to each word and read them as you go.</p>	<p>Ice melting experiment.</p> <p><a href="https://www.pinterest.com/pin/234468724340990510/">https://www.pinterest.com/pin/234468724340990510/</a></p> <p>(On Pinterest)</p>	<p>Think of a compliment to give each person in your family. Either write it down or tell them! You can use words like, "I like how you..." or "You are good at..."</p>

Math	Lang. Arts	Sci./STEAM	Health/Social
<p>Write down today's date. Then show that number in 3 different ways (numeral, pictures, tally marks). <b>Example:</b> If it's the 21st, you can show the number 21 in 3 ways.</p>	<p>Build a fort with blankets and read your favorite books to someone (a sibling, parent, pet, or stuffed animals) for at least 10 minutes.</p>	<p>Go outside and grab a bowl of snow. Make a prediction of how long it will take the snow to melt. Watch as it melts and observe the changes. How long did it take? Was your prediction close?</p>	<p>Play your favorite board game!</p>
<p>Grab a deck of cards. Mix them up and sort by color, suit, etc. Practice putting them in number order.</p>	<p>Use the following writing prompt to write and draw a picture: "This summer I hope to _____."</p>	<p>Put some water and food coloring in any empty spray bottle. Go outside and "paint" the snow with the colored water. Make different colors if you have more than one spray bottle.</p>	<p>At the dinner table, have each person take turns sharing what his/her favorite part of their day was. Practice "full body listening" with your family.</p>
<p>Use a timer to write numbers as high as you can in 1 minute. Do it 3 different times. How high could you get?</p>	<p>Go on a word scavenger hunt around your house. Look for words in pictures on the walls, on food labels, toothpaste containers, shampoo bottles, etc. See how many words around your home you can read.</p>	<p>Create with play dough. Use scissors, rolling pins, plastic knives, etc. What can you create?</p>	<p>Do one household chore (take out the trash, vacuum, clean your room, set the table, etc).</p>
<p>Practice subtraction while you're eating a snack. Grab a handful of snack crackers or cereal. How many pieces did you grab? Now eat 1 piece. How many are left? Eat 2 pieces. How many are left? Eat 3, etc.</p>	<p>Read a book with rhyming words. Find the rhyming words as you read together.</p>	<p>Use any materials you can find at home to build a bridge. Popsicle sticks, blocks, legos, paper towel tubes, or any other creative ideas you have. See how much weight your bridge can hold. Can you make it stronger after your first try?</p>	<p>Play your favorite song and dance with someone (pet, sibling, parent, or stuffed animal).</p>
