Voting Requirements

While most people in the United States can vote, not everyone can. Voters must be 18 years old to be eligible to vote. They must be registered. That means they need to sign up to vote ahead of time. People must register with their state to vote. People have to live in the state they are registered in. This helps with state government voting too. Voters must also be a United States citizen. The voting stations, or polls, have specific hours. People have to make sure they get to the polls to vote within those hours. If they are late, their vote will not be counted.

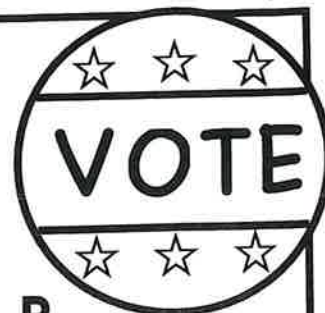

1. Can everyone in the United States vote in an election?

2. Name two requirements of United States voters.

3. What happens if people don't get to the polls in time?
