BBE Public Schools 1:1 Chromebook/iPad Implementation Handbook

Overview

The BBE Public School District is committed to preparing our learners to succeed in the changing societal landscape. It is essential that the District provide learners with the 21st century skills they need to be self-directional. We believe that effective educating and learning with technology will prepare each learner for the world in which we live. Excellence in education requires that technology is integrated throughout educational programs. Increasing access to technology is essential for our learners and to empower them to learn at their fullest potential and connect with the 4 C's (Creativity, Critical Thinking, Communication, Collaboration.) Integrating technology will enhance the quality, standards-based curriculum that is in place and will give the BBE educators opportunities to facilitate learning in a variety of ways. To accomplish this vision, the District is making Chromebook/iPad technology available as described below.

Device Options

OPTION 1: Devices will be district-owned and BBE Public Schools requires the selection of an insurance plan prior to the distribution of the Chromebook/iPad to your student. See Chromebook/iPad Device Insurance for more details.

OPTION 2: Students will bring a school supported device. However, students are bound by the BBE Public Schools 524 Acceptable Use of Technology Policy, Administrative Procedures, Acceptable Use Agreement, and all other guidelines wherever they use their Chromebook/iPad.

A. Students/Families who own their own devices may use these in school in place of a district-owned device, but are subject to the following conditions:

1. The device is available to the student for use every day at school.
2. The student/family is willing to provide the same apps, including any of the apps that are provided on the school devices required for the student's coursework.
3. The District is not responsible for technical support for personally owned devices, but can check in with the tech department for recommendations.
4. The device is not a distraction to the student or others. If the device becomes a distraction, the student will not be allowed to bring a personal device to school.

B. Any personally-owned devices that are brought into the District must be registered with technology staff before they are allowed onto the school network. This is for network security purposes as well as to comply with federal legislation regarding internet content filtering.

C. The District is not responsible for the loss, theft or damage of any personally-owned devices that are brought to school.

Receiving Your Chromebook/iPad

1. Parent/Guardian Orientation

All parents/guardians are required to complete the BBE Public Schools Chromebook/iPad Agreement before a Chromebook/iPad can be issued to their learner.

2. Distribution

Grades 1-12 will receive their Chromebooks/iPads and other related items during within the first week of school, if they do not already have possession. Learners and parents/guardians must sign the BBE Public Schools Chromebook/iPad agreement before their child receives his/her Chromebook/iPad, found in the new family and returning family online registration via Infinite Campus.

3. Transfer/New Learner Distribution

All transfers/new learners will be able to pick up their Chromebook/iPad from the BBE Technology Department located in each school after the Chromebook/iPad Agreement Form has been completed along with the insurance payment.

Returning Your Chromebook/iPad

1. End of Year

At the end of the school year, grades 4-12 can complete the 1:1 Chromebook/iPad insurance payment to take their device home over summer. Devices will be stored at school over the summer for grades 1-3 and families who opt out of summer distribution. Failure to turn in a Chromebook/iPad will result in the learner being charged the full replacement cost. The District may also file a report of stolen property with law enforcement if the device is not paid in full.

2. Transferring/Withdrawing Learners

Learners who transfer out of or withdraw from BBE Public Schools must turn in their Chromebooks/iPads to the Tech Department in either school on their last day of attendance. Failure to turn in the Chromebook/iPad will result in the learner being charged the full replacement cost. Unpaid fines and deposits of learners leaving BBE Schools may be turned over to a collection agency. The District may also file a report of stolen property with law enforcement.

Insurance Options

BBE Public Schools requires insurance be purchased prior to the distribution of the Chromebook/iPad. The insurance cost is \$40 annually for each Chromebook/iPad. Each claim covered by insurance will be assessed an incremental deductible within the current school year. Claim deductibles are listed below. If a learner withdraws from BBE Public Schools and then re-enrolls later in the current school year, the coverage purchased at the learner's initial registration will be reinstated along with the number of claims made prior to withdrawal.

IF A FAMILY IS UNABLE TO AFFORD THE INSURANCE, IT IS THEIR RESPONSIBILITY TO CONTACT THE BUILDING ADMINISTRATOR.

Trent Johnson: 320-254-8211 Ext. 1318
Laura Spanier: 320-254-8211 Ext. 2105

The District is offering families a choice of two protection plans. **Families must choose one of these two options:**

Option 1 Deductible Plan \$40 Non-Refundable	Option 2 Full Deposit \$350 Refundable
\$0 - first claim \$50 - second claim \$100 - third claim	Families may make a refundable deposit of \$350. This deposit will be returned at the end of the year if the device is returned in good condition. A proportion of the deposit will be returned if repairs have been needed. If repairs are needed, that amount will be subtracted from the deposit and the remainder will be returned at the end of the school year.

OPTION 1: SCHOOL PROTECTION PLAN

Families may purchase a non-refundable Protection Plan from the District for \$40 per academic year. This will include coverage for hardware failure, theft, repair, accidental damage including screen repairs, and liquid damage to the original Chromebook/iPad. In the event of needed repairs, the first repair will be the first claim. If the device is in need of a second repair in order to have proper use of the device, the student will receive the device back and the parents will be billed for the 2nd claim and again if a 3rd claim happens. In the event of a full replacement for a device, the 2nd device is covered under the first claim. However, if a second device needs replacing, a third Chromebook/iPad will only be provided upon receipt of the full deposit. This Protection Plan does not protect against deliberate or negligent damage to the device. Protection Plan Premiums for families with multiple children in the district will be capped at \$120.

Deductible Claim 1: \$0

Deductible Claim 2: \$50
Deductible Claim 3: \$100

OPTION 2: FULL DEPOSIT

Families may make a refundable deposit of \$350 representing the amount of the full value of the Chromebook/iPad. This deposit will be returned at the end of the school year if the Chromebook/iPad is in good condition. A portion of this deposit may be withheld if the Chromebook/iPad is returned with damage.

Payments can be made by: 1) cash or check made out to BBE Public Schools, or 2) via www.bbejaguars.org/technology on the BBE Schools website where you will find the button for the 1:1 Device Insurance Payment.

Learners may be selected at random to provide their Chromebook/iPads for inspection. The purpose for inspection will be to check for proper care and maintenance as well as inappropriate material being carried into the school.

Software on Chromebooks

Originally Installed Software

Chromebook software is delivered via web-based applications that do not require installation space on a hard drive. Some applications, such as Google Drive, are available for offline use. The software originally installed on the Chromebook must remain on the Chromebook in usable condition and must be kept on the dockbar at all times.

All Chromebooks are supplied with the latest build of Google Chrome Operating System (OS), and many other applications useful in an educational environment. Chrome OS will automatically install updates when the computer is idle or restarted.

Updates

The Chromebook operating system, Chrome OS, updates automatically. Learners do not need to manually update their Chromebooks, but they may need to periodically restart their device for a downloaded update to install.

Google Apps for Education (bbejaguars.org Accounts)

- Chromebooks seamlessly integrate with the Google Apps for Education suite of productivity and collaboration tools.
- All work is stored within Google Apps.

Additional Apps and Extensions

Learners are able to install additional appropriate apps and extensions on their Chromebook if there is space on their device. Learners will need to make sure the apps and extensions that are directed by the BBE Schools remain on the devices.

Software on iPads/Updating and Maintaining your iPad

iOS Updates

Learners are encouraged to install any iOS software updates that are pushed to the device. This should be done at night, while charging and connected to the internet as it can be a lengthy process.

App Updates

The District will continue to use JAMF Software with the JAMF School Mobile Device Management Program. Jamf Student is a REQUIRED app that must be kept on devices at all times. App updates will be coming through this app and the learner will be able to update apps this way.
